

What is node.js?

Ryan Lewis
rylewis@expedia.com

Class Overview

Who are you?

What is node.js?

Getting our hands dirty

Your Name

What do you do?

Why do you want to learn node?

NETFLIX

Walmart 

IBM

 **Expedia**[®]

PayPal[™]

 **Microsoft**

U B E R

2 million node modules installed *daily*

9th most *popular* technology*

Used in nearly *every* industry

*<http://stackoverflow.com/research/developer-survey-2016>

What do companies use node for?

A solid teal square.

Web Sites

A solid red square.

Desktop Apps

A solid green square.

Automation

How does code work?

```
var x = 2;  
var y = 5;  
console.log(x + y);
```

Code

```

01100100 01110011 00100001
```

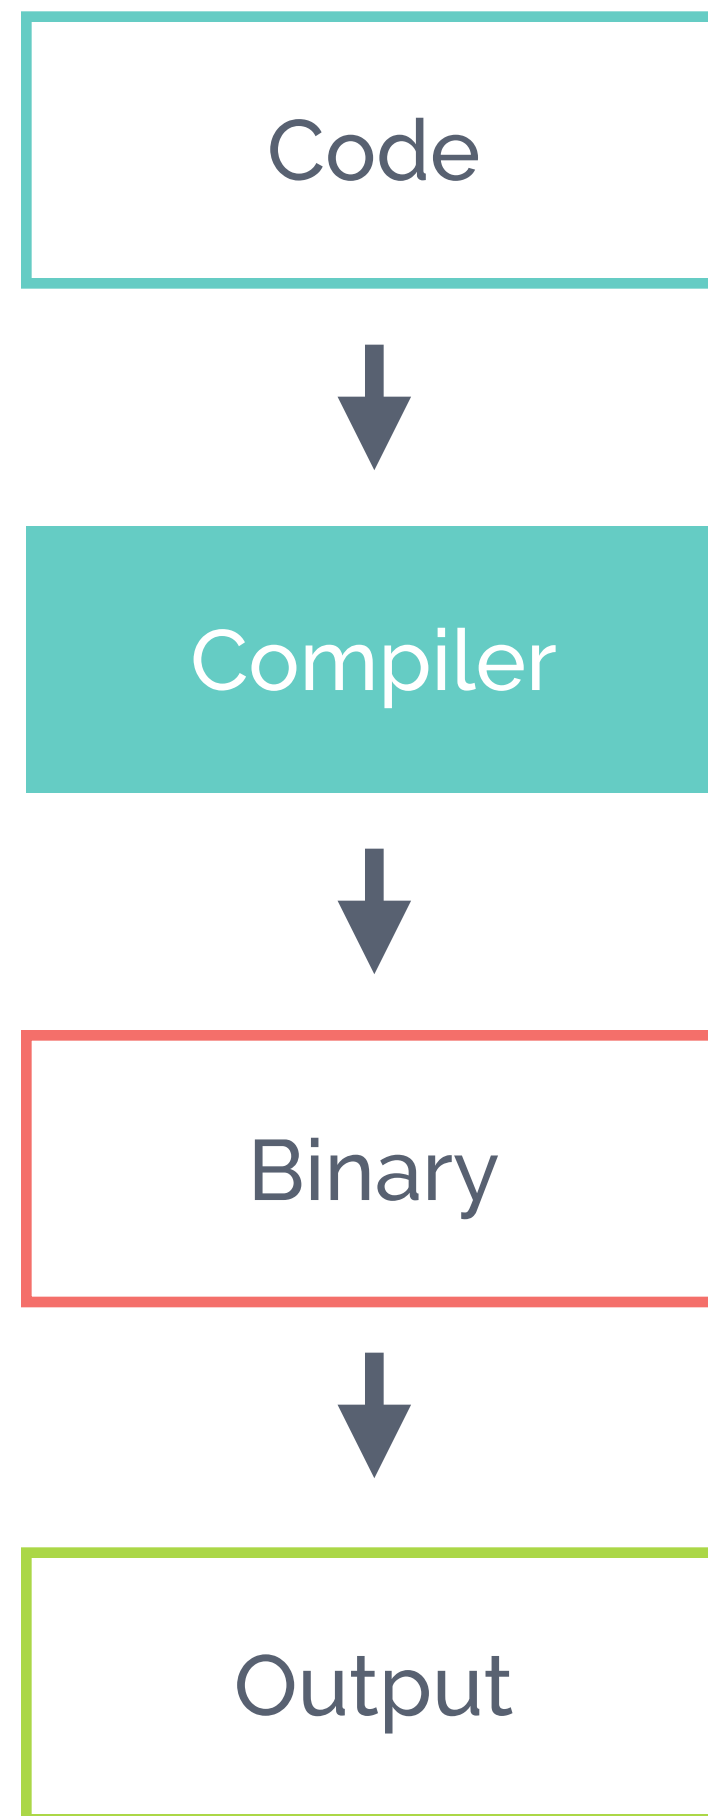

Binary

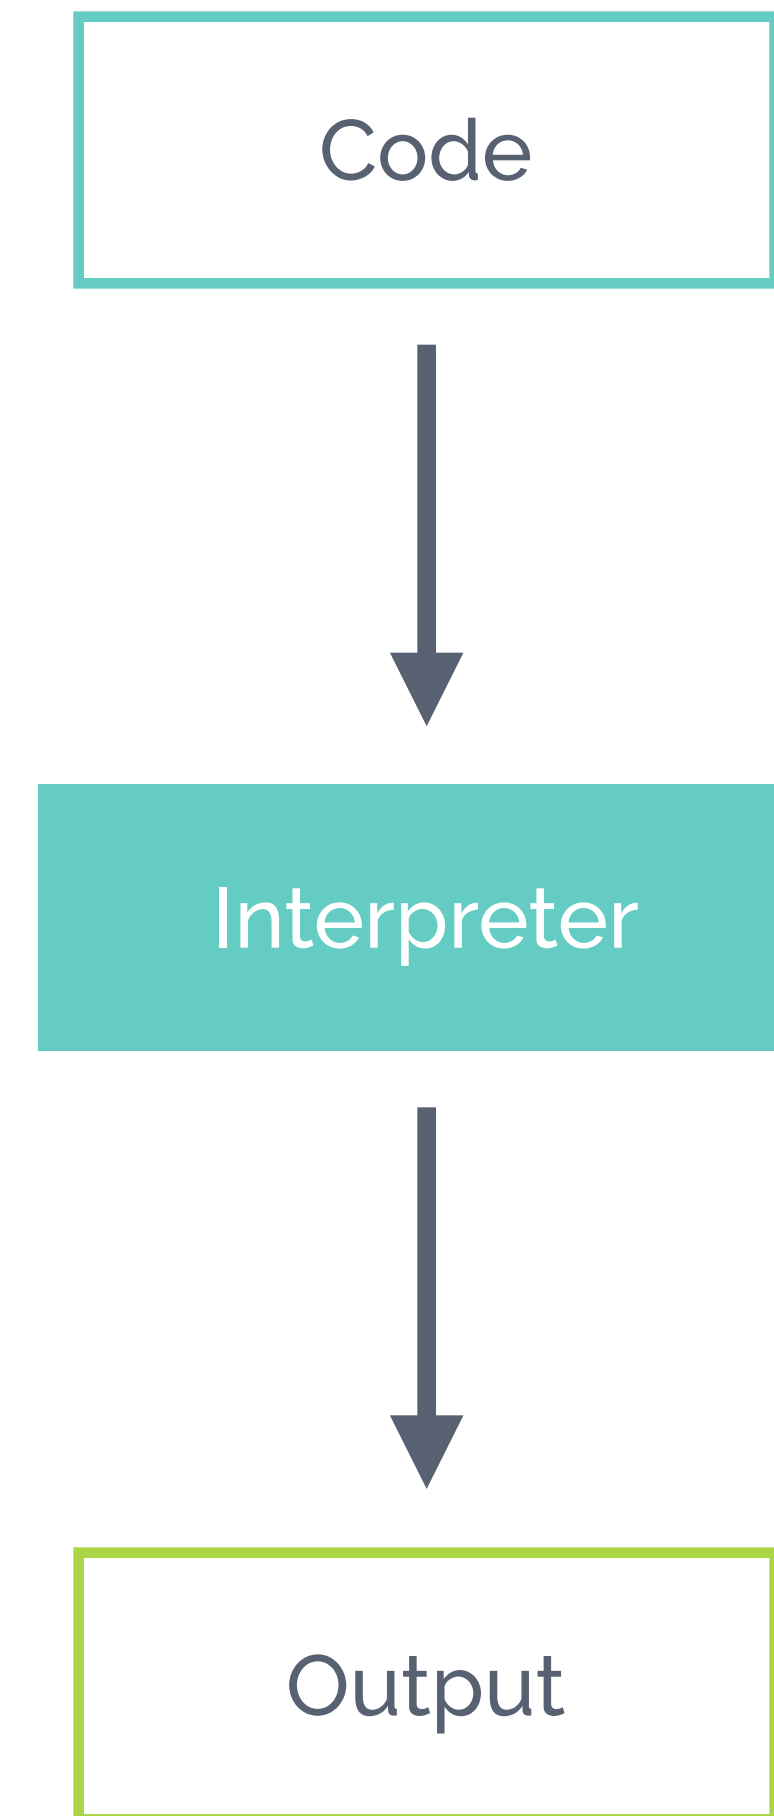

The image shows the Expedia website's flight search interface. At the top, there's a navigation bar with the Expedia logo and a menu icon. Below it, a row of buttons includes 'Flights', 'Hotels', 'Flight + Hotel' (which is highlighted), 'Cars', 'Cruises', and 'Things to Do'. Under the 'Flight + Hotel' button, there's a sub-row of buttons: 'Flight + Hotel', 'Flight + Hotel + Car', 'Flight + Car', and 'Hotel + Car'. The main search form has two input fields for 'Flying from' and 'Flying to', both with placeholder text 'City or airport'. Below these are three sections: 'Departing' with a date picker showing 'mm/dd/yyyy', 'Returning' with a date picker showing 'mm/dd/yyyy', and 'Rooms' with a dropdown menu showing '1'. There are also two dropdown menus for 'Adults (18+)' showing '2' and 'Children (0-17)' showing '0'. A checkbox labeled 'I only need a hotel for part of my stay' is present, and a link for 'Advanced options' is at the bottom. A yellow 'Search' button is at the bottom right.

Output

Compiled Code

Interpreted Code

1996

JavaScript

JScript

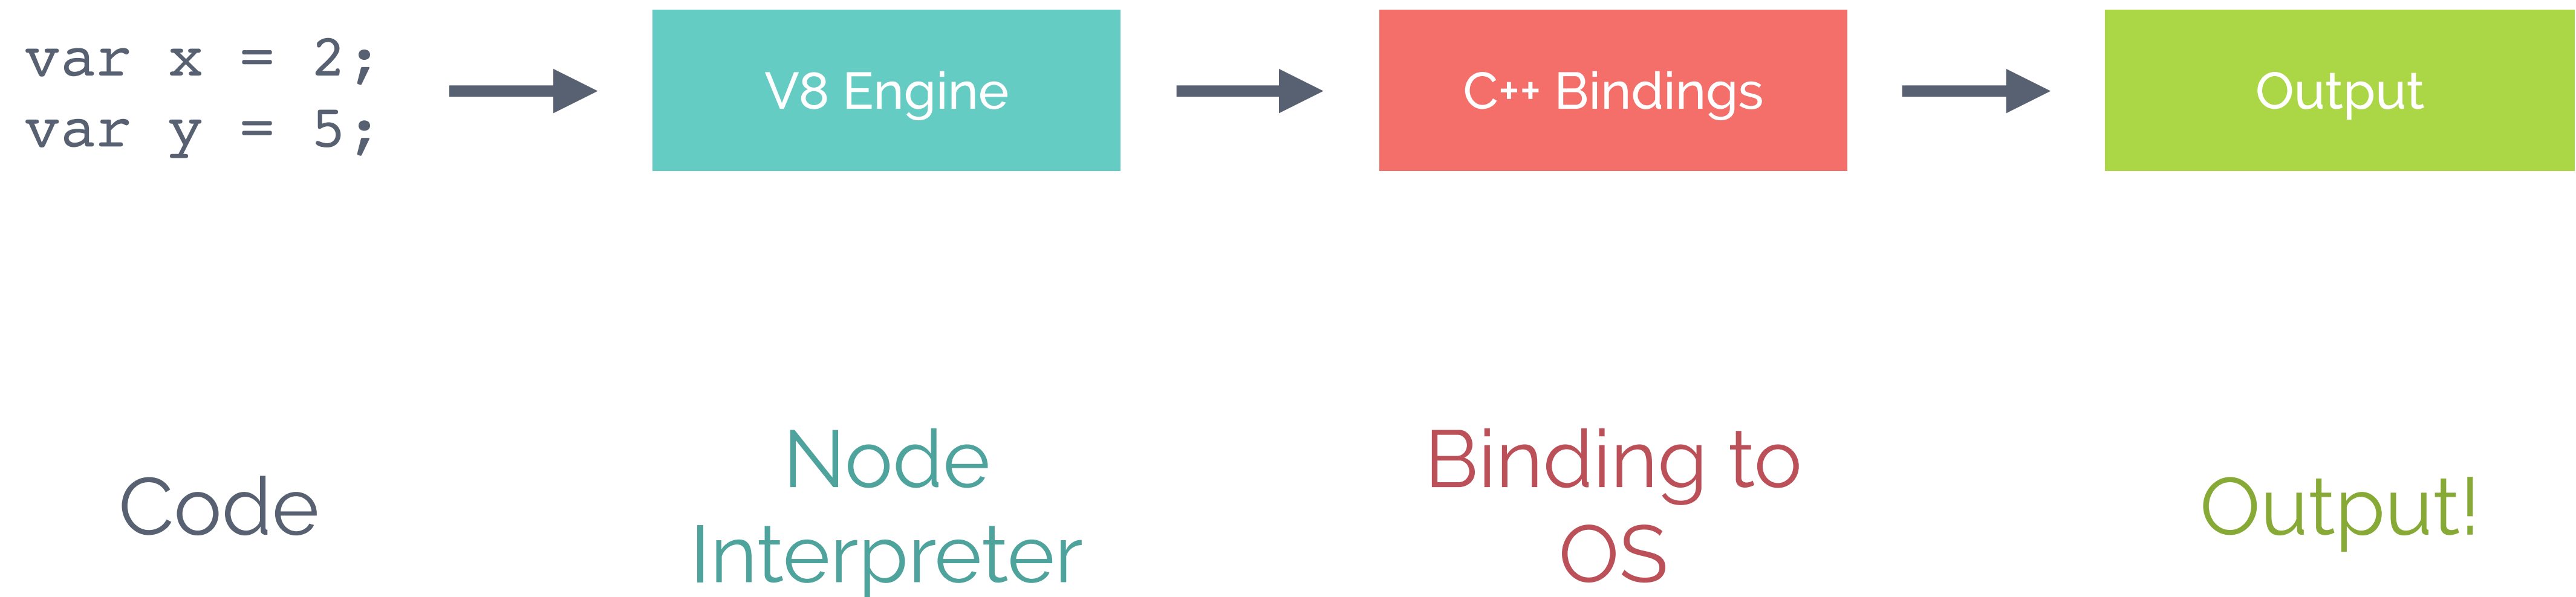

ECMAScript

Birth of node.js

V8 JavaScript
Engine

How node works

What can you do with node?

Automate a task

**Make a personal
website**

Program a robot

Class Scope

Understand node

Be comfortable writing JavaScript in node

Build simple, command line applications

Install Node

<https://nodejs.org>

*Any version is fine!

How to open a command line

Windows

1. Windows Key
2. "Command Prompt"

OSX

1. Command + Space
2. "Terminal"

Things to do so Ryan doesn't forget

Install Visual Studio + HelloWorld.js

Install Github Client + Signup
